

LED SLIM AREA LIGHTS

AR-MAL SERIES

280W Model

Fixture shown with Slipfitter Knuckle

Fixture shown with Straight Arm

60-140W Model

FEATURES:

- Replaces up to 750 PSMH equivalent
- Universal 120-277V dimming driver standard, 347-480V available
- Dusk-to-dawn and occupancy sensor compatible
- Greater than 100,000 hour L70 lifetime at TM21 standards at 25°C
- 5-year limited warranty

MOUNTING:

- 6" Extruded Straight Arm¹
- Trunnion Swivel
- 2-3/8" Slipfitter Knuckle

CONTROLS:

RPC Option: Allow the use of 3rd party distributed intelligence controllers designed to connect to the fixture via our NEMA standard C136.41 3-pin twist lock receptacle to provide dimming and On/Off control. Separate Photocontrol options are available, see page 4. **Receptacle does not come with photocell included. The photocell is sold separately.**

Photo/Motion Sensor: The FSP-211 uses passive infrared (PIR) sensing technology to react to changes in infrared energy (i.e. moving body heat) within the coverage area. This slim, low-profile sensor is designed for installation inside the bottom of a light fixture body and is ideal for outdoor environments. The sensor operates at 120V/230V-240V and single phase 277V. The motion sensor is fully adjustable with high and low dimmed light level options with optional dusk to dawn control. Sensor can be combined with various lenses to operate at mounting heights from 8' to 40'. Please refer to page 4 for the sensor's factory default settings. Factory settings can be adjusted via the FSIR-100, a wireless configuration tool. **Note that the sensor comes with photocell setting disabled and the FSIR-100 must be purchased if photocell functionality is desired.**

DIMENSIONS: Please see page 3 and 5 for dimension drawings.

PRODUCT DESCRIPTION:

Say goodbye to the clunky shoebox. The LED Slim Area Lights (AR-MAL) delivers class-leading efficacy in a lightweight design that can be effortlessly applied to new and retrofit outdoor projects. Offered in lumen packages ranging from 7,700lm to over 35,000lm, the AR-MAL Series achieves up to 129 lumens per watt while providing significant long-term energy and maintenance cost savings.

Please refer to the FSP-211 Supplementary Datasheet for more product information.

MODEL SELECTION		Typical order example: AR-MAL60UT550-BRA						
AR-MAL				-		BR		
FAMILY	NOMINAL WATTAGE	VOLTAGE	DISTRIBUTION	-	CCT	FINISH	MOUNTING	OPTIONS

NOTES:

1. The straight arm mounting fits square poles. For compatibility with round poles, combine the straight arm mounting with a round pole adaptor. See adaptor selection table on next page.
2. Surge Suppressor only available with 120-277V models
3. **Receptacle does not come with photocell included. The photocell is sold separately. See page 4 for ordering options.**
