Lamp Ready Vapor Tight LSV Series

Product Description

The MaxLite Lamp Ready Vapor tight series provides Architects, Specifiers, and Buyers with a ETL listed fixture engineered to operate the latest Single/Double ended LED T8 lamps supplied separately. Offering classic IP65 ratings, with spec grade Stainless steel latches, these fixtures come pre-wired for single ended operating LED lamps for contractor ready installation as new or remodel fixtures.

Caution: Replace only with MaxLite Single ended or Single-Double ended T8 lamps.
 Visit maxlite.com for ordering information.

Dimensions

Features

- Stainless Steel spec grade hasps and clips
- Lead wires are 7' for tandem wiring, eliminating back and end knockouts.
- Sockets are wired in series via non-shunted sockets
- Ceiling or wall mounted
- Surface mount brackets included

Construction

- Engineered and ETL rated to take up to 22w per set of lamp holders
- Pour in place silicone seal provides hermetically sealed envelope for wet environments
- Polycarbonate housing and clear lens standard.
- Wiring is 18 AWG solid to allow 120-277v operation where lamp specification allows
- Sockets rated to 660W, 600V, ETL Listed
