

LED LINEAR LIGHTBAR SYSTEM

MLSDLB SERIES

2' Model

PRODUCT DESCRIPTION:

The MaxLED light bar system is a plug and play linear lighting solution that offers superior light quality and a flexible form factor well suited for commercial, architectural, and residential application.

FEATURES:

- Dimmable down to 15%
- Linkable up to 40' in linear length
- L70 > 50,000 hours

CONSTRUCTION:

- High quality extruded aluminum
- Architectural grade diffuser eliminates unsightly spots and delivers evenly distributed, pleasing light
- Powder coating ensures maximum finish durability
- Suitable for Damp location use
- Integral driver

CONTROL:

- The MaxLED Lightbar system is optimized when controlled with Lutron's DV-ELV dimming control and can also work with addition low voltage electronic dimming controls.
