MaxLite offers a complete line of ENERGY STAR certified LED indoor and outdoor lighting solutions designed to save on energy and maintenance costs in residential applications including home, apartment, condo, townhouse, assisted living, dormitory, hotel, motel, and other hospitality applications. All of our fixtures are UL or ETL listed, and qualify for utility rebate programs in many areas.
Residential Lighting Fixtures and Lamps

Ceiling: Flush Mount

Flush Mount fixtures provide long-lasting, energy-efficient illumination for hallways, bedrooms, kitchens, bathrooms, utility rooms and closets. Choose from a full range of traditional, architectural, puff and disc light designs in a variety of diameters and lumen outputs to suit any lighting need.

Features:
- 90 CRI versions available (select models)
- Output equivalent to traditional 60W-100W lamps
- Small (11”-12”), medium (13”-14”), large (15”-16”)
- Disc Light available in 4” and 6”
- Dimmable and damp-location rated
- Available as integrated LED design or Bulb-in-Box fixture (2 x 12W JA8 Compliant E26 lamps) - select models only
- 2700K, 3000K and 4000K

Wall: Sconce

Available in several lumen outputs, decorative sconces provide general purpose and accent lighting that enhances the ambience and safety of hallways and seating areas. Visually pleasing designs create a clean, fresh appearance that complements any décor.

Features:
- Options available to replace 60W, 75W, 100W and 125W Incandescent
- 90 CRI available (select models)
- Dimmable
- Available as integrated LED design or Bulb-in-Box fixture (1 x 10W JA8 Compliant E26 lamp) - select models only
- 2700K

Bath: Vanity

Available in modern and traditional designs, MaxLite Vanities deliver flattering light ideal for bathrooms and vanity spaces. LED solutions provide years of maintenance-free illumination.

Features:
- Options to replace 60W, 75W and 100W incandescent
- 90 CRI optional perfect for makeup application (select models)
- Suitable for damp locations
- Dimmable
- Available as integrated LED design or Bulb-in-Box fixture (3 x 10W JA8 Compliant E26 lamp) - select models only
- 2700K and 3000K
Outdoor: Lantern

Handsome and durable outdoor lanterns feature a dusk to dawn sensor to light up the house or yard when evening arrives, and turn off when the sun rises. A lifetime of 35,000 hours translates to years of maintenance-free performance for property managers and homeowners alike.

Features:
• Replaces 40W incandescent
• Suitable for damp locations
• Available as integrated LED design or Bulb-in-Box fixture (1 x 17W JA8 Compliant E26 lamp) - select models only
• 2700K

Floor Lamp: Torchiere

LED Torchiere provides long-lasting illumination and energy cost savings for general and accent lighting applications. The torchiere has a half shade that provides even illumination and a die cast steel body ensures enduring style and durability.

Features:
• Suitable for damp locations
• Dimmable
• Bulb-in-Box fixture (2 x 12W JA8 Compliant E26 lamps)
• 2700K

Recessed Downlights: Residential Retrofits

MaxLite’s LED Residential Retrofits offer an upgrade in light quality and energy savings compared to traditional sources. Easy to install and easy to use, these downlight retrofits are the ideal solution for consumers looking to reduce energy costs in residential applications.

Features:
• Available in 4” and 6”
• 120V or 120V-277V
• Triac dimmable
• 90 CRI option available
• T20 Certified (120V models)
• ICAT (Universal models)
• Suitable for wet locations
• White trim and plastic lens
• Supplied with E26 base adaptor
• 2700K, 3000K and 4000K
Residential Lighting Fixtures and Lamps

J-Box Downlight

The downlight is built with an integral junction box that eliminates the need for a traditional recessed housing, saving installers time and money. Simply connect the junction box wiring to a light switch and place it into the ceiling - no can, bulb or extra labor required. Easy to install in new construction and remodel projects, the downlight has a slim body that fits into shallow ceilings. Its white baffle trim blends seamlessly into interiors and reduces glare for soft eye-pleasing illumination.

Features:
• Available in 4” and 6”
• 120V
• Triac dimmable
• 90 CRI option available
• Suitable for wet locations
• 2700K, 3000K and 4000K

Enclosed Rated Omnidirectional A19

For use in fully enclosed fixtures, these specially designed LED A-lamps deliver even lighting equivalent to that of an incandescent bulb, while consuming nearly 85 percent less energy. The dimmable, enclosed-rated lamps are available in two color temperatures and E26 and GU24 bases to suit a variety of fixtures and applications.

Features:
• Replaces 40W, 60W, 75W and 100W incandescent lamps
• 480, 800, 1,100 and 1,600 lumens
• 120V
• Triac dimmable down to 10%
• E26 and GU24 base available
• Suitable for damp locations
• 2700K, 3000K and 4000K

Enclosed Omnidirectional A-Lamp - JA8 Series

Designed to meet Title 20 and Title 24 code for the State of California, these JA8 LED A-lamps deliver even lighting equivalent to that of 40W, 60W, 75W & 100W incandescent bulb, while consuming up to 85% less energy.

Features:
• 480, 800, 1,100 and 1,600 lumens
• 120V
• Triac dimmable down to 10%
• 90 CRI
• E26 and GU24 base available
• Suitable for damp locations
• 2700K and 3000K
