

# LED OUTDOOR LANTERNS

MaxLite LED Lanterns provide long-lasting illumination and energy cost savings for multi-residential properties. Designed to complement traditional home exteriors with a black finish and colonial accents, each lantern is supplied with a 9-watt, GU24 base LED lamp that delivers warm, inviting light in 2700K. The lamp is enclosed with frosted glass panels that provide excellent color rendering, with a minimum 80 CRI. A die cast aluminum body ensures enduring style and durability over a long lumen maintenance period of 25,000 hours.

## FEATURES

- 9W LED equivalent to 60W incandescent
- Photocell
