

# MaxLite® WallMax™ Cutoff Wall Packs

**One Size Fits Wall**

**Internal CCT  
Selectable Switch**

**Built  
In Level**

**40W**  
5,225 lm

**70W**  
8,872 lm

**100W**  
12,746 lm

MaxLite introduces the WallMax Cutoff, a CCT selectable fixture that gives customers the choice of 3000K, 4000K or 5000K in a single SKU. Three different lumen packages, with options for high voltage, photocell, motion sensor or battery backup, can meet virtually any application need. All of this, plus MaxLite's 10-year warranty (labor allowance included!) and usual competitive pricing make this fixture a wall-to-wall winner.
