Emergency Lights (EML and ER Series)

MaxLite Emergency Lights illuminate the path to safety with a low profile design that complements any commercial interior or exterior. The lights feature fully adjustable LED heads, which may be tilted to provide the optimal lighting for egress in emergency situations. The EML Series is available in a higher capacity version that can power up to two additional remote heads.

Exit Signs (EX Series)

MaxLite's long-lasting Exit Signs are available in Red or Green letters to illuminate passageways to safety. The series includes combination Exit and Emergency fixtures with adjustable LED heads for ultimate lighting flexibility.

More Products Available

MaxLite can also provide Exit and Emergency solutions by special order, such as Edge Lit Signs, code-specific Exit Signs and Emergency Lighting with motion sensor and emergency battery backup.
