

Tap Into Value!

Energy savings are at your fingertips with c-Max™ Network Controls!

c-Max Network Controls makes it easy to add Luminaire Level Lighting Controls to achieve energy savings and improve occupancy comfort. Using a patent pending, plug and play design, sensors and network nodes simply plug into the integrated USB-C receptacle of MaxLite controls ready luminaires.

Pair c-Max nodes with Controls-Ready MaxLite luminaires today, or in the future!

Why Should You Choose c-Max?

Simple

- Easy DIY installation
- Easy commissioning
- Easy on budget

Versatile

- Scale across both indoor and outdoor products
- Multiple energy-saving features in small form factor
- Variety of sensors, network nodes and powerpack

Future Ready

- Add network controls during installation or later
- Upgrade sensors without removing fixtures
- Version and firmware updates will be backwards compatible
